stay safe and have fun on the internet

Be careful who you trust online. Making new friends can be fun, but there's a chance that they may not be who they say they are.

Set your profile to **'private'** so your personal information is kept secret.

Don't open messages from people that you don't know. These could be nasty, contain viruses or be trying to sell you something.

Always keep your password a **secret**.

Tell your parent/carer or the librarian if you are upset by language, pictures or anything **scary** on the internet.

Ask a librarian about good sites to visit and a safe search engine to use. Browsing is a great way to find things, but you may not end up where you planned.

Think before you post information online—once posted it's difficult to remove.

Don't accept any offers that seem too good to be true—they probably are.

Ask your parent/carer before you give anyone on the internet your name, address or **any** personal details.
