## The Big Picture—A treasure chest of gold

### Task:

In the other episodes of CyberQuoll there are lists of Golden Rules provided.

What do you think Golden Rules are?

Here's an example:

*Never give your personal details over the internet.*

Having viewed Episode 6 a couple of times:

- what do you think are the three most important Golden Rules of internet safety?
- discuss your opinions with the rest of the class.
- are there three Golden Rules that are the most popular?

Create stickers or mini posters for your three Golden Rules.

These stickers will need to be very colourful and have a strong visual element on them as well as the particular Golden Rule.

Or, you could design posters:

- for your classroom
- to put on or beside school computers
- to place around the school (check with your teacher where you could place them)
- at home.

Golden Rule 1

Golden Rule 2

Golden Rule 3
